More details on my LinkedIn profile

PROFIL

Curious, dynamic, passionate but also rigorous and determined, these are the qualities that characterize me at work and in life.

As an engineer since 2019 and holder of two degrees in computer science and big data, I have not stopped evolving and certifying myself in the fields of development, human resources, project management and blockchain.

My vocation is to accompany my clients or my employers in the digital transformation of companies by allowing them to seize with passion this tremendous opportunity offered by digital and emerging technologies
